SAY HELLO TO THE ALL-NEW I 1120 – OUR NEXT-GENERATION INTERLOCK CIRCULAR KNITTING MACHINE

Now available in 30" and 34" diameters (and other diameter on request) in E28 gauge range – a big step forward in knitting tech that combines precision, performance, and innovation.

Terrot Interlock machine model I 1120

We're especially excited to announce that the I 1120 will be on display at the Santoni Showroom in São Paulo, Brazil, after the Tecnotêxtil Brasil exhibition. If you're in the industry, this is a great chance to see the machine up close, get a feel for what it can do, and talk to our team about how it could fit into your production line. Come by, have a look, and let's talk knitting.

Knitting head I 1120 - Terrot Interlock

ADVANTAGES AT A GLANCE

- Highly productive circular knitting machine with 4.0 systems per inch
- Unified needle system: Achieve maximum efficiency and precision with the same needle used in both dial and cylinder
- Superior plating quality: Maintain excellent plating quality even at high speeds
- Innovative cam design: Engineered for high-speed operation and optimal fabric quality
- Advanced connectivity: Integrated LAN interface with OPCUA protocol for seamless communication and control
- Motorized fabric take-down system, featuring three rollers and an automatic winding-up device, exemplifies industrial-grade performance
