VOLTAS LIMITED

KNITTING

(Machinery & Accessories)

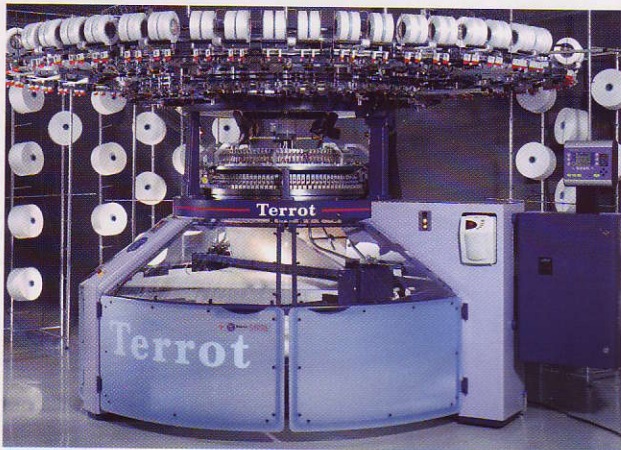

At the very outset of the recent growth phase in India's knitting sector, Voltas stepped in with its representation of Circular knitting machines from Terrot (Germany), who rank among the top two suppliers in quality knitting machines, renowned for their matchless in-house expertise and services.

Recent interesting developments have placed Voltas in a new role as a joint share holder along with the

re-established new management at Terrot.

Recognising the critical importance of accessories and spares for capital equipment, Voltas services knitting machines through Memminger (Germany), as well as lubricants from Kluber (Germany).

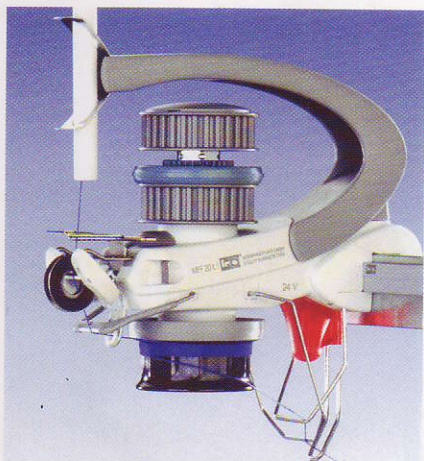

Voltas also represents Steiger (Switzerland) for Flat Knitting Machines.
