

UCC 572-T

High feeder jacquard transfer model for fine gauge fabrics

The UCC 572-T is Terrot's flagship in the production of functional sport and leisure textiles, offering great flexibility and a high production output. The machine features a wide variety of applications while producing single and double jersey structure area combinations in addition to hole patterns. This model makes designer's dreams come true.

- Finest transfer machine worldwide
- Highest level of trust from famous sports labels and textile manufacturers
- Highly productive (2.4 feeds per inch)
- Flexible production of leisure and sportswear
- Body Mapping technology
- Unlimited pattern options

UCC 572-T

High feeder jacquard transfer model for fine gauge fabrics

The UCC 572-T is a highly flexible knitting machine featuring transfer technology for the production of functional sports and leisurewear.

Advantages at a glance

- Made in Germany – maximum efficiency and precision
- High production of fine gauge transfer fabrics up to E24
- In cylinder and dial with 2.4 feeds per inch
- Also available in different gauge settings in cylinder (E14 or E16) and dial cam (E28 or E32)¹ for more application possibilities
- Combines single and double jersey structure areas to boost features like breathability, stretch and fit
- Creates sportswear with an improved fit called "Body Mapping"
- Reliable 3-way cylinder needle selection technology for knit, tuck and miss
- Reliable and high-quality elastane plating
- Unlimited pattern options with Terrot's pattern design software "Paint Terrot"

Technical details

Diameter [inch]	30	34
Feeders	72	84
Speed up to [rpm]	18	16
Gauges [E]	14 - 24	
Fine gauge [E] ¹	14/28 – 16/32	
Speedfactor [max.]	540	
Knitting technology	Electronically controlled, elastane plating, individual needle selection	
Possible structures	Transfer Jacquard	
Fabric application	Leisure and sportswear, outerwear	

Transfer pattern production example of the UCC 572-T for 34 inch and 16 rpm [unfinished, 85 %]

Exemplary fabric application	Gauges [E]	Yarn	Weight [g/m ²]	Production [m/h]	Production [kg/h]
Leisure wear	16	Tencel Nm 40/1	150	35.19	11.65
Sports and leisure wear	14/28 ¹	PES "COOLPLUS" Nm 50/1	130	32.64	9.76
Sportswear	24	PES 100 den, Elastan 20 den	130	24.48	6.21

Deviations are possible and all items are subject to technical changes. Illustrations may show accessories that are not included in the standard version.
